Dear Sir

Are you wanting any eggs of Prairie Jay. I have 4 nice sets this season collecting with four each. Also have the nests. Could furnish you at 50¢ for egg or furnish you set of four with nest for $2.00 by you paying the transportation. No charge for nest or packing simply ask when nests are wanted that they pay their own transportation. Could furnish you one to four clutches.

I have met you at the annual meeting of the A. O. U. but of course you do not remember me.

Respectfully Yours

D. D. Ingraham

Dear Sir In reply to yours of Jan 9th Regarding Pinon Jays Eggs would say that I received the money Peter O.K. and should have given the data required only was out of Digt blanks - twice since then I have written for blanks but have not even got them yet - Party is going one fortnightly is the reason - Then I was taken sick and everything was neglected - As soon as I get Blanks will fill them out and send them -

The Memoranda on the paper means - One set of four Incubation slight - 4th month - 19 day - 1899. The eggs were collected by myself about 15 miles from Beulah in Pueblo Colo. Taken from a Pinon tree about 10 feet from the ground -

I have four or five sets on hand all taken by myself last spring. None larger than four - in fact never have taken but one set of five - Will supply such as I have at 25c per egg. or set of four and nest at $1.50 but where I send nest must ask parties to pay their own transportation - If Mr Brewster uses his own printed blanks if sent one I will fill out data on them - Without my health improves I shall not

be able to get any this coming spring -
Awaiting your reply I remain
Sincerely Yours
D. P. Ingraham

Address me at Pueblo as I am wintering here on account of my health - The Am Goshawk set was disposed of before your letter reached me but I likely may get a set this coming year if able to ride so far up the mountain as I learn the bird has occupied the nest for some years in succession
